

Visitors are allowed to visit those in the hospital during open visitation, except during posted quiet times. The patient's children, when supervised by an adult other than the patient, are welcome during visiting hours and not restricted by age.

You must not have a fever, cough, shortness of breath, runny nose, body aches or respiratory symptoms when visiting.

All visitors should wash their hands with soap and water for 30 seconds when entering and leaving patient rooms and the facility in general. Any visitor must stay in the patient's room the entire time of the visit or move to the designated family room or waiting rooms.

Masks are no longer required at this time.

Labor and Delivery – Triage

- Triage patients are allowed **one (1)** partner-in-care and **one (1)** labor support person.
- Visitors must remain in the room at all times. The only exception is during a procedure.

Labor and Delivery – Patient in Labor

- Laboring patients may have **one (1)** partner-in-care and **one (1)** labor support person stay in the room, including overnight.
- Laboring patients may have **two (2)** additional visitors during visiting hours.
- The patients' children may visit during visiting hours with adult supervision (who is not the patient).
- All visitors must stay in the patient room throughout their visit.

Antepartum – Postpartum – Mother/Baby Unit – Gynecological Patients

- Patients in these units may have **one (1)** partner-in-care who is able to stay in the room throughout the length of the stay, including overnight.
- **Two (2)** additional visitors, not including the partner-in-care, may be in the room during visiting hours, 6 a.m. - 9 p.m.
- The patients' children may visit with adult supervision (who is not the patient) during visiting hours.
- All visitors must stay in the patient room throughout their visit.
- Please note quiet time for Postpartum is 2-4 p.m. Only the partner-in-care is encouraged to visit during this time.

NICU

- The mother and father of baby are allowed in the NICU 24 hours/day.
- Up to **four (4)** designated grandparents may also visit.
- Siblings/children may **NOT** visit the NICU.
- All visitors must:
 - Call the unit to be admitted.
 - Wash hands/arms up the elbow for 30 seconds when entering.
 - Fill out a health screening and have temperatures taken daily.
- There should not be more than **two (2)** visitors at the bedside at a time.
- Please note quiet time in the NICU is between Noon - 2 p.m.
